

NATIVES AND CURIOS FROM ALL THE WORLD

Methodists Will Gather Them All at Columbus for Centenary Celebration.

JAPAN AND CHINA SHOWN

War Scenes and Views From Every Corner of North American Continent.

COLUMBUS, Ohio, June 14.—Intimate domestic scenes from each of the older foreign countries will be displayed at the Methodist Centenary fair grounds June 15 and 16. The exhibition and all the latest church work exhibition ever attempted will make the come of 100 years of missions activity by the Methodists a clear cut.

Highly Hugo buildings will house the foreign exhibits, the curious and costumed natives from forty odd countries of the world, some of the largest will be described after the fair opens.

The exhibition and all the latest church work exhibition ever attempted will make the come of 100 years of missions activity by the Methodists a clear cut.

The procedure involved in the investigation of the transportation of a company's business is very much the same as that employed in laying out a route for a transcontinental road. Investigation should show the amount of business to be expected over a proposed line and it then should determine the quantity of operation and the type of road required. This in turn would determine the amount of power to be used and so the total construction and operating costs could be fixed which together with the number of people would determine the fare necessary to be charged. Some consideration also would have to be given to whether or not the road would attract more people to travel along its routes and produce more rides. Then it may promote an increase of business. Hence, although it may not seem profitable on first consideration, by virtue of the future business it would be good business to build the line.

The Chinese building represents a walled city, the streets of which are picturesquely crowded with stores and typical Chinese houses. There also is a Confucian temple. A miniature gondola ride goes through the India building. There is also a typical Hindu bazaar.

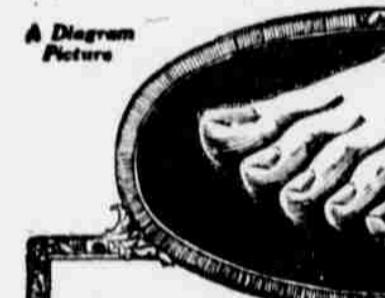

War Scenes. Reproduction of a shell-shattered French cathedral in the European building will be used for textures and motion picture views of scenes in France and Belgium. Separate sections are devoted to Russia, South America, and the Balkans. South American, Cuban and Mexican scenes also are located here.

The large exhibit buildings are devoted to scenes and life pictures from every corner of North America. Alaskan and Pueblo Indians, mountaineers, New York shopkeepers and southern darkies will be shown living in their varied environments.

ARKANSAS NEGRO HANGED AFTER ALLEGED ASSAULT

STAR CITY, Ark., June 14.—John Ellison, negro, was hanged to a bridge yesterday morning at a point about three miles from Star City, following an alleged attempt by the negro to assault Miss Idel Bennett, 18 years old, daughter of George Bennett, a farmer of the vicinity. Mr. Bennett's negroes freighted him home and attracted the attention of neighbors when the negro is said to have attempted to attack her at her home Thursday night. The negro was captured, brought before the young woman and identified by her as her attempted assailant. He was taken to the bridge one end of a rope tied about his neck, the other end to the bridge, and he was forced to jump off. Two of the members of the mob have been identified.

Raise Funds for Memorial. Commissioner Bohn and Fire Chief Adler are attempting to secure the film, "The Still Alarm," to exhibit at a benefit entertainment and to raise \$10,000 in funds sufficient to build a memorial monument in one of the local cemeteries in memory of Tulsa firemen who have lost their lives in line of duty.

Why Corns Hurt

Note this diagram picture of a corn. Note its conical shape. The cause of the corn is pressure. And pressure makes it hurt. The point of the cone is pushed into the nerves. Applying a Blue-jay plaster instantly removes the pressure. Note the felt ring (A) in the picture below. The ring gives barefoot comfort in the tight shoe.

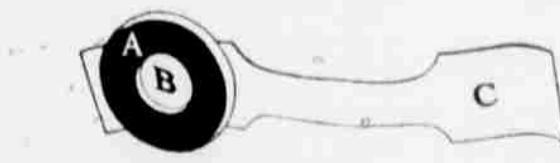

But that is temporary. One should not continue a ring. The corn should be quickly ended.

The bit of B&B wax in the center of the ring does that (marked B in illustration below). In two days, usually, the whole corn disappears. It stops the pain, then ends the corn. And it wraps the corn so the action is undisturbed.

Then the action of the B&B wax is centered on the corn. Held there by the rubber coated adhesive tape (C) which wraps comfortably around the toe. Healthy tissue is not affected.

These are the reasons why millions of people have adopted the Blue-jay method. Keeping corns is folly when this easy way can end them. Treating them in cruder ways is inexcusable.

For your own sake, convince yourself by applying Blue-jay to one corn.

Business Must Show Profit, Local Packard Truck Agent Says

Hashtags and delivery constitute the main function of most businesses. These, of course, depend on their ability to perform this work safely, reliably, quickly and rapidly, to stay in business and show a profit. Yet their working will be more secure and profits increased if they will examine with more care and thoroughness all the elements involved and consider all of the transportation means and methods available.

Considering all of these factors and methods various types of trucks may be considered and also whether or not in connection with a one-truck or semi-trucks can or cannot be used. The probable future business of the particular community under investigation should be considered.

The procedure involved in the investigation of the transportation of a company's business is very much the same as that employed in laying out a route for a transcontinental road. Investigation should show the amount of business to be expected over a proposed line and it then should determine the quantity of operation and the type of road required. This in turn would determine the amount of power to be used and so the total construction and operating costs could be fixed which together with the number of people would determine the fare necessary to be charged. Some consideration also would have to be given to whether or not the road would attract more people to travel along its routes and produce more rides. Then it may promote an increase of business. Hence, although it may not seem profitable on first consideration, by virtue of the future business it would be good business to build the line.

MINOR HELD IN PRISON: BRITISH CAUSE ARREST

By The Associated Press.

COBLENZ, Friday, June 13.—Robert Minor, the American magazine writer and cartoonist, in the military prison at Coblenz in charge of American military authorities, it was announced today at Third army headquarters.

Officers who have heard the particulars regarding the confinement of Minor say that he was arrested by the French at the request of the British military authorities who have been preparing for action against propagandists.

It is understood that Minor has spent several weeks in Dusseldorf within the last few months, going to that city from Petrograd. According to information from the hands of American Minor wrote several pamphlets in Dusseldorf and had them printed, some of them reaching the British areas. It was asserted that the pamphlets were of radical tendencies.

FRENCH PLACE ORDER HERE FOR HALF MILLION TONNAGE

PARIS, June 14.—Orders placed by American shipyards for a half million tons of merchant ships to go under the French flag have been approved by Edward N. Hurley, chairman of the United States shipping board, and he has informed M. Cazeau, French chargé d'affaires at Washington, to this effect, it was announced today.

Notification also was given by Mr. Hurley that 200,000 tons of shipping ordered by France in June, 1917, and now in service, will be transferred to France.

Germans Not Playing Fair. BIELEFELD, June 14.—Large amounts of war material, chiefly automobiles, have been stolen in Germany and shipped over the borders for a sale, according to statements of Herr Goerke, minister of the interior. Total value of war material held realized only 275,000 marks and the majority of that was paid for in war loan certificates, he added.

REFUSES TO SUBMIT REFERENDUM ASKED

Arkansas Petitioners Mandamus Secretary of State to Compel Placing on the Ballot.

LITTLE ROCK, Ark., June 14.—Arkansas proceedings to compel Thomas J. Terrill, secretary of state, to accept the petition asking referendum vote on the action of the Arkansas legislature in ratifying the eighteenth (prohibition) amendment to the federal constitution, will be heard in the U. S. circuit court of appeals, before Judge G. H. Hendricks early next week.

When the referendum petition containing 1,562 names of legal voters was presented to the secretary of state a few days ago, he said that he put the measure on the ballot November 2, 1920, to obtain a majority voting for special equipment for excusing within the territory of the United States, contains no words to indicate that an emergency existed, or declaring one, in fact, which in itself makes the act unconstitutional.

In the opinion given the attorney general he holds that the resolution to accept the petition and to place the referendum on the ballot is unconstitutional because it was not adopted by an "act" but was adopted by a joint resolution of both houses, and that this resolution is not such an act as can be rejected by petition from the people.

The Sherwin-Williams Paints Cover the Earth

EXPERT INFORMATION ON PAINTING

The Real Purpose of Painting May Be Described as Follows:

- | | |
|--------------------------------|------------------------------|
| FIRST —For Preservation | THIRD —For Sanitation |
| SECOND —For Decoration | FOURTH —For Economics |

The individuals directly interested in the paint business are the house-owner, the builder, the painter, the dealer and the manufacturer, so it is important and necessary that the interests of each and all be studied and understood if the result desired is to be satisfactory.

Having devoted a lifetime to the study of its every requirement; a paint that withstands climatic conditions existing in this and other sections of the country, we desire to inform you that we are now in a position to present for your approval a paint that is satisfactory in its every requirement, a paint that will not scale or chalk. A paint that will give satisfaction for years to come. We guarantee Sherwin-Williams Paints to cover more surface, wear longer and look better than any paint on the market.

DON'T THROW YOUR MONEY AWAY, TALK WITH EXPERTS AND GET RESULTS—DOLLAR FOR DOLLAR.

Our decorative department is second to none. Drop in any time and see Our Art Room—it is a Revelation.

Tulsa County's Fruit Crop This Year Will Be BIG!

But not any too big to supply Tulsa County people. Keep the fruit at home by home canning! Don't let it be shipped out, then live out of tin cans next winter, paying high prices for inferior canned products. Can everything available! We may not have good canning crops again for years. Can in Kerr Jars and the food will keep forever—if necessary—because Kerr Jars seal AIR-TIGHT.

Kerr Jars and Caps

"SELF SEALING" BRAND

Keep ALL the Food

Put up fruits, vegetables, meats, etc., in Kerr Jars with perfect confidence that nothing will spoil, or even mould. Kerr Jars use no rubber rings and seal absolutely AIR-TIGHT by any method of canning. They are the only jars on the market that test themselves!

Kerr Jars and Caps are easy to seal and easy to open. Canning with them is a pleasure instead of a long laborious process. To open Kerr Jars you merely puncture the lid, insert point of knife under the edge and lift up—as simple as can be. And there is no mould, no spoiling!

HOUSEWIVES: ASK YOUR DEALER FOR KERR JARS

Kerr Jars and Caps are handled by the leading grocery, hardware and department stores in Tulsa and vicinity. If your dealer does not handle them, he can get them for you from one of the jobbers listed below.

DEALERS: THESE JOBBERS WILL SUPPLY YOU

Tulsa Grocer Co., Griffin-Goodrich Groc. Co., Baileigh-Sanders Groc. Co., Dreyfus Brothers, ALL OF TULSA, Okla.

HINES STOPS EXCURSIONS TO AID TROOP MOVEMENT

WASHINGTON, June 14.—So as to not interfere with the transportation of soldiers now returning from France, whose increasing numbers, says General Hines today ordered that railroad equipment for excursion purposes be limited to an absolute minimum. Among permits for special equipment canceled was one for 10 coaches and Pullmans to be operated by the New York Central from New York to accommodate persons who wished to see the Willard Temples fight July 4.

DANIELS ABOLISHES NAVY ORNAMENTS AND TRAPPINGS

WASHINGTON, June 14.—Espana marked hats and covered belts and highly ornamented special dress coats, heretofore worn by naval officers on special occasions, are abandoned under new regulations issued by Secretary Daniels. The discarded foppish articles of uniform will result in economy of space on board ship, ease in traveling and a great financial saving to the officers, the secretary said.

WHY not have this recreation and enjoyment in YOUR HOME? YOU CAN. Come to Genet's and hear the wonderful Pathé play with the Sapphire Ball that never needs to be changed. Records last indefinitely, because they are not cut and ripped by a sharp-pointed needle that must be changed after every selection.

This makes the tone more natural and purer.

PATHE RECORDS cover the entire range of musical endeavor from the popular hits of the day to the reproduction of the finest artists of the musical world.

You are invited to hear them.
